Kent International Festival				

In Kent, the Sky's the Limit

Here, space flight isn't just 20th century history. At its Kent-based space center, Boeing designed, tested and built the Lunar Rover for NASA used in Apollo missions 15, 16 and 17. Today, while Blue Origin is busy producing reusable rockets and rocket engines, Airways Brewing is crafting signature beers true to its aerospace theme (Pre-Flight Pilsner and Big Ol' Jet Airliner IPA to name a few). Enjoy a pint at two Kent locations.
